The Benefits of Euro Windows

Hopper Windows

Hopper windows are hinged at the bottom, opening in, and are designed to offer ventilation and security, they are generally used in ground level rooms, although can be used in different applications as well. They're often selected for use in small spaces, and are designed to circulate air while protecting the interior from the rain.

Stylish and Versatile Designs

- AESTHETICS THAT ARE HARD TO BE MATCHED BY OTHER WINDOW MANUFACTURERS.

Add interest and drama to your project by utilizing custom architectural shapes. These fixed or operable units can be used alone or mulled to the standard configurations to create a wall of light or simply a focal point.

The Ability to Fill Large Spaces and Still Function

- OUR WINDOWS HAVE REINFORCEMENTS THAT MAKE THEM ABLE TO FILL VERY LARGE SPACES WITHOUT THE FUNCTIONALITY BEING COMPROMISED.

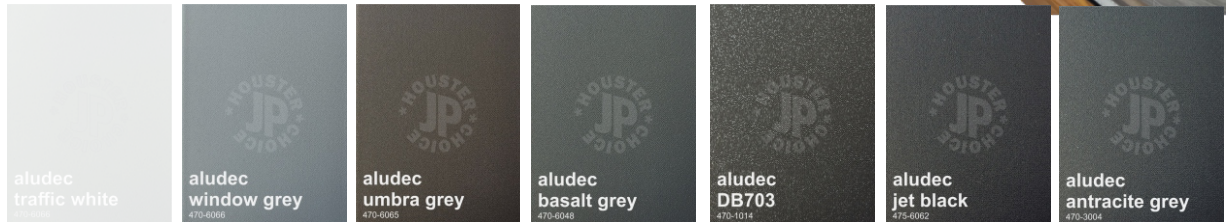

Custom Colors

Choosing the right color is very important when in the process of purchasing windows and doors, as their aesthetic will affect a great part of your home or project as a whole. We offer many colors and laminates so you can find the perfect look to fit your needs. If you have a color from a different paint brand that you're trying to match, let us know and we'll do our best to find the right RAL color that would match the closest to your request.

Laminates

Our Woodec and Aludec by Aluplast laminates are a great choice if you wish to add texture or a woodgrain look to your windows and doors. They are made from high quality materials, designed to be durable and long lasting. They can withstand daily wear and tear without showing signs of damage or scratches. They do not require special cleaning agents or extensive maintenance routines.

Hardware/Handles

Handles are available in different styles and colors.
